

## Job Description

**Title:** UI Engineer

**Location:** Pune, India

### Overview

appOrbit is an emerging startup enabling customers accelerate the digital transformation of their businesses. Our vision is to make it possible for enterprises to deploy and manage end to end life cycle of any application (legacy, cloud native, windows, linux) on any infrastructure (virtual machines, containers, bare-metal) across any cloud (public, private, hybrid). Our platform is already helping several dozen customers realize this vision.

appOrbit is looking for a UI engineer to build the product's front end web interface that customers will use to interact with the product. You will have the opportunity to solve challenging UX/UI problems and use the latest web technologies to build a simple, aesthetically clean, intuitive and highly interactive web application that will have a huge impact on the product's success.

### Responsibilities:

- Understand and implement the design and architecture of the company's UI development.
- Performance optimization of existing application.
- Implement effective use of cache technologies for better performance.
- Good hands on experience on JavaScript frameworks i.e. Angular JS ,ReactJS
- Should be able to handle server side code integration.
- Writing high-performance reusable code for UI components

### Qualifications:

- Bachelor's degree or higher in Computer Science or related field
- Minimum 4-6 years' of experience
- A very strong JavaScript foundation and clear understanding of JavaScript classes, prototype based inheritance, modules, private member scopes, etc.
- Good working knowledge Object oriented JavaScript, JQuery, Html5, CSS3
- Good hands on experience on JavaScript frameworks i.e. Angular JS ,ReactJS
- Worked on any JavaScript MVC frameworks like ExtJS/Sencha, Knockout, Backbone, Ember, Angular
- Should have experience in Single page application
- Understanding of compiled-to-JS languages like Coffee Script/Typescript and compiled-to-CSS ones like SASS/SCSS/LESS

### Preferred Skills:

- Good to have Grunt, Gulp and other build tools
- Conceptual Creativity
- Autonomous and self-driven
- Tenacious and meticulous
- Excellent ability to work in a team
- Passionate and motivated to work for a top class start-up on ground breaking technologies and change the future.

**Benefits:**

- Fun, creative and fast-paced working environment
- Terrific medical and accident insurance plans
- Pantry stocked with snacks and beverages
- Flexible time-off with generous paid holidays
